FORM 8-K

CURRENT REPORT

Pursuant to Section 13 or 15(d) of the Securities Exchange Act of 1934

Date of Report (Date of earliest event reported): **April 23, 2018**

LIGHTBRIDGE CORPORATION

(Exact name of registrant as specified in its charter)

<u>Nevada</u> (State or other jurisdiction of incorporation)	<u>001-34487</u> (Commission File Number)	<u>91-1975651</u> (IRS Employer Identification No.)
--------------------------------------------------------------------	-------------------------------------------------	-----------------------------------------------------------

**11710 Plaza America Drive, Suite 2000
Reston, VA 20190**
(Address of principal executive offices, including zip code)

(571) 730-1200
(Registrant's Telephone Number, Including Area Code)

Check the appropriate box below if the Form 8-K filing is intended to simultaneously satisfy the filing obligation of the registrant under any of the following provisions:

- Written communications pursuant to Rule 425 under the Securities Act (17 CFR 230.425)
- Soliciting material pursuant to Rule 14a-12 under the Exchange Act (17 CFR 240.14a-12)
- Pre-commencement communications pursuant to Rule 14d-2(b) under the Exchange Act (17 CFR 240.14d-2(b))
- Pre-commencement communications pursuant to Rule 13e-4(c) under the Exchange Act (17 CFR 240.13e-4(c))

Indicate by check mark whether the registrant is an emerging growth company as defined in Rule 405 of the Securities Act of 1933 (17 CFR §230.405) or Rule 12b-2 of the Securities Exchange Act of 1934 (17 CFR §240.12b-2).

Emerging growth company

If an emerging growth company, indicate by check mark if the registrant has elected not to use the extended transition period for complying with any new or revised financial accounting standards provided pursuant to Section 13(a) of the Exchange Act.

Item 7.01 Regulation FD Disclosure.

On April 23, 2018, Enfission, LLC, a joint venture of Lightbridge Corporation and Framatome, issued a press release relating to remarks by an officer of Enfission at the World Nuclear Fuel Cycle conference, including Enfission's intention to submit a regulatory approval plan to the U.S. Nuclear Regulatory Commission later in 2018. A copy of the press release is furnished as Exhibit 99.1 to this report.

The information in this Item 7.01 shall not be deemed "filed" for purposes of Section 18 of the Securities Exchange Act of 1934, as amended, nor shall it be deemed incorporated by reference in any filing under the Securities Act of 1933, as amended, except as shall be expressly set forth by reference to such filing.

Item 9.01 Financial Statements and Exhibits.

(d) Exhibits

Exhibit No.	Description
99.1	Press release of Enfission, LLC dated April 23, 2018.

SIGNATURES

Pursuant to the requirements of the Securities Exchange Act of 1934, the registrant has duly caused this report to be signed on its behalf by the undersigned hereunto duly authorized.

Enfission to Present Regulatory Approval Plan to the U.S. NRC in 2018, Company Announces at World Nuclear Fuel Cycle Conference

Innovative nuclear fuel provides economic, safety and non-proliferation benefits, says Enfission executive

RESTON, Va. – April 23, 2018 – Enfission LLC, a joint venture of Lightbridge Corporation (NASDAQ: LTBR) and Framatome, today announced that Jim Malone, Chief Fuel Development Officer at Lightbridge and Vice President, Fuel Development at Enfission, provided detailed manufacturing, regulatory and commercial plans for its innovative nuclear fuel technology to attendees at the World Nuclear Fuel Cycle conference on April 19. Organized by the Nuclear Energy Institute and World Nuclear Association (WNA), the World Nuclear Fuel Cycle Conference is an international forum that was held in Madrid from April 17-19.

During a panel discussion on the WNA Harmony challenge, which outlines the need to scale up new nuclear power generation to combat climate change, Malone described how Enfission's Lightbridge Fuel can contribute to adding 1,000 gigawatts of nuclear energy capacity by 2050. Since both current and future reactors can use Lightbridge fuel, it is well suited to serve the needs created by the Harmony challenge.

"Enfission is making steady progress towards validation and commercialization of its metallic nuclear fuel, which significantly enhances the economics of existing and planned nuclear reactors, in addition to the safety and non-proliferation benefits of the fuel. We look forward to submitting our regulatory approval plan to the U.S. Nuclear Regulatory Commission later this year," said Malone.

Enfission was officially launched in January 2018 by Lightbridge, a nuclear fuel technology company, and Framatome, a leader in nuclear fuel, components and reactor services, to develop, license and sell nuclear fuel assemblies.

About Lightbridge Corporation

Lightbridge (NASDAQ: LTBR) is a nuclear fuel technology development company based in Reston, Virginia, USA. The Company develops proprietary next generation nuclear fuel technologies for current and future reactors, which significantly enhances the economics and safety of nuclear power, operating about 1000° C cooler than standard fuel. In January 2018, Lightbridge and Framatome, Inc. formed a 50-50 joint venture, Enfission, LLC, to develop, license, manufacture, and sell nuclear fuel assemblies based on Lightbridge-designed metallic fuel technology and other advanced nuclear fuel intellectual property. Enfission has the exclusive rights to this technology and is responsible for the development of manufacturing processes and fuel assembly designs for pressurized water reactors (PWRs), boiling water reactors (BWRs), water-cooled small modular reactors, and water-cooled research reactors developed around this intellectual property. PWRs and BWRs constitute the most widely used reactor types in the world. Four large electric utilities that generate about half the nuclear power in the US already advise Lightbridge on fuel development and deployment. In addition to distributions from Enfission based on the parties' ownership interest in the joint venture, Lightbridge anticipates receiving future licensing revenues in connection with sales by Enfission of nuclear fuel incorporating its intellectual property. Lightbridge also provides comprehensive advisory services for established and emerging nuclear programs based on a philosophy of transparency, non-proliferation, safety and operational excellence. Forward Looking Statements

With the exception of historical matters, the matters discussed in this news release are forward-looking statements within the meaning of the Private Securities Litigation Reform Act of 1995, including statements regarding the Company's joint venture operating agreement and other binding agreements with Framatome, the expected cooperation between Framatome and the Company, the ability of commercial nuclear utilities to generate more electricity from their nuclear power plants using Lightbridge fuel, and that the economic and safety benefits of our fuel will encourage greater use of nuclear power. These statements are based on current expectations on the date of this news release and involve a number of risks and uncertainties that may cause actual results to differ significantly from such estimates. The risks include, but are not limited to, the degree of market adoption of the Company's product and service offerings; market competition; dependence on strategic partners; demand for fuel for nuclear reactors; the Company's

ability to manage its business effectively in a rapidly evolving market; as well as other factors described in Lightbridge's filings with the Securities and Exchange Commission. Lightbridge does not assume any obligation to update or revise any such forward-looking statements, whether as the result of new developments or otherwise. Readers are cautioned not to put undue reliance on forward-looking statements.
