Lightbridge Selected to Present at CleanEquity Monaco 2017 - The 10th Anniversary

RESTON, Va., Feb. 28, 2017 (GLOBE NEWSWIRE) -- **Lightbridge Corporation** (NASDAQ:LTBR), a U.S. nuclear fuel technology company, today announced that it will present at CleanEquity Monaco 2017 on March 9th & 10th at the Fairmont Monte Carlo.

CleanEquity is an annual invitation-only event hosted by Innovator Capital, the London based specialist investment bank. The conference provides an intimate and collegiate setting for inventors and entrepreneurs to share their stories with delegates - key decision makers looking to assist them with reaching their commercial and strategic goals.

Other partners and sponsors include Prince Albert II of Monaco's Foundation, Covington & Burling, Cisco EIR, Cision, Cranfield University, Hobbs & Towne, the Monaco Economic Board, Parkview and the Social Stock Exchange.

Lightbridge has been identified by an expert panel as one of the world's most innovative sustainable technology companies and has been selected to present to senior financial and strategic cleantech investors, policy makers, legislators, end users and media.

About Innovator Capital

Innovator Capital, established in 2003, is a specialist investment bank advising emerging technology companies on corporate finance, mergers and acquisitions. Its expertise includes intellectual property and multinational strategic partnering.

About Lightbridge Corporation

Lightbridge (NASDAQ:LTBR) is a nuclear fuel technology company based in Reston, Virginia, USA. The Company develops proprietary next generation nuclear fuel technologies for current and future reactors. The technology significantly enhances the economics and safety of nuclear power, operating about 1000° C cooler than standard fuel. Lightbridge invented, patented and has independently validated the technology, including successful demonstration of the fuel in a research reactor with near-term plans to demonstrate the fuel under commercial reactor conditions. The Company has assembled a world class development team including veterans of leading global fuel manufacturers. Four large electric utilities that generate about half the nuclear power in the US already advise Lightbridge on fuel development and deployment. The Company operates under a licensing and royalty model, independently validated and based on the increased power generated by Lightbridge-designed fuel and high ROI for operators of existing and new reactors. The economic benefits are further enhanced by anticipated carbon credits available under the Clean Power Plan. Lightbridge also provides comprehensive advisory services for established and emerging nuclear programs based on a philosophy of transparency, non-proliferation, safety and operational excellence.
